

## MF-250 GLAND PACKING

This packing is manufactured with P.T.F.E. filaments impregnated in P.T.F.E. dispersion and special lubricants, certified by FDA, for the use with food and pharmaceutical products.

The packing has a high lubrication and an excellent resistance to chemical attack. This is an excellent packing for uses in pumps and valves basic/acid solutions, as well as with oxidating agents.

This packing can work in centrifugal pumps at high and low speed, in control and regulation valves, all types of alternative movements, mixers, agitators, and generally in all types of equipment.

This packing is specially recommended for the attack against composed and chemical agents.

### Applications

- Packing for every kind of equipments, pumps, Valves. And every kind of equipments of the pharmaceutical and alimentary industry.

Recommended by MONTERO for use in equipments that require FDA approval.

Also used as anti-extrusion in packing sets for chemical industry.

- Equipment in:  
Refineries, Petrochemical and Chemical , Sugar and Paper Industry  
Thermal and Nuclear Power Generation Plants  
Steel Mills and Foundries  
Shipbuilding Industry  
Mining and Cement Industry  
Pharmaceutical and Process Industry
