

MF-940 PACKING

This packing is produced with high quality fenolic filaments – KYNOLNOVOLOID – coated on P.T.F.E. in the corners with high quality P.T.F.E. encapsulated graphite.

The synthetic filaments of KYNOL confer a high mechanical resistance without being aggressive with the shaft and the P.T.F.E. with graphite ensures good chemical resistance with the heat dissipation. This is a very flexible packing for universal use in pumps.

This is a high quality universal packing for uses in pumps and agitators in a high conditions but it can be used in a variety of applications.

This packing is specially recommended for pumps in high conditions.

Applications

- Packing for every kind of equipments, pumps and valves
- Recommended by MONTERO for use in agitators and centrifugal pumps of high applications.
- Equipment in:
 - Refineries, Petrochemical and Chemical ,
 - Sugar and Paper Industry
 - Thermal and Nuclear Power Generation Plants
 - Steel Mills and Foundries
 - Shipbuilding Industry
 - Mining and Cement Industry
 - Pharmaceutical and Process Industry
